## ACKNOWLEDGMENTS

Arizona is fortunate to have professional archaeologists willing to share their time and knowledge with amateurs who have an avocational interest in archaeology. The cooperation of these professionals with the Arizona Archaeological Society (AAS) has resulted in a quality educational program for presentation throughout the state.

AAS members Ben Mixon, Grace Schoonover, Charlie Gilbert, and Dorothy Bender met in 1977 and organized the Department of Certification. Several archaeologists were appointed to the Department of Certification in the first year. Professional archaeologists who served during the first year were:
